## Machine Preparation:

It is suggested although not a requirement, that all students ride a "sportbike" type, road-legal machine. The purpose of the school is to allow each student an opportunity to work on their riding skills. Riders will be grouped according to the size of their bike and riding skill. This benefits all students as you can ride with other riders of similar skills and know what to expect of each other. In order to prepare your bike for the race school, you will need to ensure the following is done:

- Each machine must arrive in the morning ready to go.
- All bikes must be in safe and roadworthy condition.
- The following must be taped over or removed -all glass lenses on instruments (except tach), reflectors, head and taillights.
- Each bike must have a functional engine kill switch.
- Students must ensure that brakes, tires and chain are not overly worn.
- **NO ANTIFREEZE** -distilled water and water wetter only in the radiator.

Each rider's bike and rider's clothing and protective gear will be checked at technical inspection.

## Riding Gear:

The following items must be supplied by all school students to be worn during the on-track portion of the school:

Roadrace School:

- Snell 2000-approved helmet with suitable eye protection.
- Full racing leathers (one piece or two piece) or a leather jacket with leather pants suitably joined together by some method, i.e., belt, zipper, laces, duct tape. No jeans or non-leather motocross gear accepted. Or Full textile riding gear that zips together.
- Leather riding gloves and appropriate footwear such as riding boots.

## Roadrace School Course Description:

The EMRA has developed a school to allow motorcycle enthusiasts a safe and informative opportunity to develop and refine their street riding and racing skills. A classroom session will cover bike preparation, rider preparation, proper racing lines, braking and cornering techniques as well as crash avoidance. For track sessions the students don their protective gear and join their designated small groups for individual riding instruction from their instructors. (Riders will be in groups with others of similar ability and equipment.)

## EMRA Race School Registration

EMRA School registrations will be sold on a first come first served basis. Students who pass an EMRA race school will be given an EMRA competition license that year. If the student does not participate in a minimum of one event two years after taking an approved race school that student will be required to take another race school in order to be re-certified for licensing. It is the students responsibility to show proof of training or race history. (Street School students do not qualify for race license.)

## Refund Policy:

**Refunds will be granted for schools up to 15 days in advance of the school with the exception of a \$50 service fee. No refunds will be issued in the last 7 days before the start of the school. The School runs rain or shine so come prepared!**

**No refunds will be given to students asked to leave the course for behavioral reasons.**
