11) DRUGS AND ALCOHOL POLICY

- a) The EMRA is committed to maintaining a healthy and safe racing environment by, among other measures, providing track and sanctioned events free from illegal drugs, cannabis drugs and alcohol. The importance of this commitment is reinforced by the fact that many Members work in safety sensitive positions in which an error in judgment or compromised motor skills could result in injury or even death. The illegal use of drugs, cannabis, or alcohol by a Member may adversely affect the EMRA's ability to function in a safe manner. Accordingly, the EMRA maintains a strict policy against the use of alcohol and the unlawful use of drugs at all EMRA race sanctioned events.
- b) Drug and Alcohol Testing
 - i) In order to assure a healthy, safe and productive race environment in accordance with this Drug and Alcohol Testing Policy, the EMRA may conduct specific drug and alcohol testing in the following circumstances:
 - (1) Reasonable Suspicion: The EMRA may request that a Member submit to a drug or alcohol test if there is reasonable suspicion that a Member is or may be unable to race in a safe manner because of the use of illegal drugs, cannabis drugs or alcohol. Whether there is a reasonable suspicion will be determined based upon specific observations concerning appearance, behaviour, speech or bodily odour of the Member. Examples include, but are not limited to, the following: evidence of illegal drugs, cannabis drugs or alcohol on or about the Member's person or in the Member's possession or conduct on the part of the Member that suggests that the Member may be under the influence of illegal drugs, cannabis drugs or alcohol.
 - (2) Post-Incident: The EMRA may request that a Member submit to a mandatory drug and alcohol test if the Member was involved in a significant incident, accident or near miss and the EMRA, acting reasonably, believes that illegal drug, cannabis drugs or alcohol

use may have been a contributing factor. The request will be made as soon as reasonably practicable after the significant incident, accident or near miss.

- (3) Safety-Sensitive Position: For the purposes of the EMRA, a “safety-sensitive position” is one in which incapacity due to drug or alcohol impairment could result in direct and significant risk of injury to the Member, a third party or third parties, property or the environment. These positions depend upon alertness, quickness of response, soundness of judgment, and accuracy of coordination. Any Member placed into a safety-sensitive position may be required to undergo drug or alcohol testing prior to commencement in that position. In such circumstances, placement into a safety-sensitive position is conditional upon a negative test result. Any Member volunteering for a safety-sensitive position who undergoes drug or alcohol testing and received a positive result or has tampered with the sample or test result is in violation of this Drug and Alcohol Policy.
- ii) Members are required to cooperate with any testing required under this Drug and Alcohol Policy. No Member shall tamper with or adulterate a sample submitted for testing or substitute a sample or submit an adulterated or substituted sample for testing.
- iii) Testing Procedures: A Member required to undergo drug and alcohol testing will be taken to the appropriate health professionals of the EMRA to conduct drug and alcohol testing. The Member will be requested to provide a sample for a drug and alcohol test administered by a qualified medical practitioner (the “**Paramedics**”). The Paramedics will promptly provide the EMRA with the results from the test. If the Member:
- (1) Tests negative - then the Member will be cleared to return to participating in the days’ events at the sole discretion and direction of the Directors; or
 - (2) Tests positive - the Member will be asked to immediately leave the EMRA event. The Member may be subjected to further review, along with potential disciplinary action, which may include, but not be limited to, revocation of Membership and lifetime ban from the EMRA.

In the event that the Member refuses the test, the Member will be considered to have breached the terms of this Drug and Alcohol Testing Policy and his or her Membership may be revoked for cause.

If a Member has been advised that he or she must report for drug or alcohol testing, that Member will be considered to have refused to submit to a test if he or she:

- (a) expressly refuses to submit to the test;
- (b) fails to appear at the test site within a reasonable period of time without a reasonable explanation for the delay;
- (c) fails to provide an adequate sample without a valid medical explanation; or
- (d) engages in conduct that obstructs or is intended to obstruct the testing process.
